Pictou Volunteer of the Year 2018 - Brian Kellock

Brian epitomizes what a true volunteer does. When one door closes another one opens. As life unfolds and our children move away new opportunities present themselves which help build our community. In a recent newspaper interview with Brian he stated that the number of visitors at the Hector Qua was up but they are in need of more volunteers. Brian spends many hours helping promote the Pictou Waterfront. Another aspect of Brian's community volunteering is the quiet ongoing help he provides using his skills and expertise in the technical field. You hear it said often...ask Brian...and his happy positive help comes immediately. This type of volunteering is what makes Pictou so appreciated by town residents as well as our newcomers. Brian has volunteered almost as many years as his age.

Organizations Brian has volunteered with over the years include: Ringette, hockey, baseball, swimming, recreation commission, Kinsmen Club, Fisheries Museum, NS Lighthouse Project, Ship Hector Society and Pictou Historical Society.

The Town of Pictou is very pleased to have Brian Kellock as their 2018 Volunteer of the Year.

Approximately 40 years ago
Community pride and youth development
